BLINK is also overseeing the renovation of the Regent Taipei.

COURTESY BLINK DESIGN GROUP

Perched on the Peak, this bachelor's eyrie boasts a helicopter pad, entertainment lounge, and chef's kitchen with all the gadgets money can buy, capped by a seductive bath-and-bed experience with sliding glass roof and cantilevered pools. The owner – a super-high-net-worth thirty-something restaurateur and lounge club owner who also happens to be the scion of a *Forbes* rich list family – flits around in his personal Ferrari helicopter, private jet and motor yacht. He loves to entertain at home, and his penthouse parties are legendary for their exclusivity and extravagance. Motorised glass roofs glide over the 'floating' bath and garage. The glass wall facing the harbour unfolds at the touch of a button – and can change opacity and colour depending on the owner's moods. It's a castle among the clouds for a future king of the universe.
